ABOUT US

Collège national de science et technologie inc. is an accredited higher education institution.

It was founded on the principle of providing education for students from all over the world, in rapidly evolving fields such as Information technology.

OUR MISSION

Our mission is to bring young adults and workers looking for a new career path from all around the world, to obtain higher education competencies and skills in a rapidly evolving field, and to give students tools and resources to successfully integrate the job market and to turn their projects into successful businesses.

OUR VALUES

COLLABORATION Beyond the often-imposed teamwork.

MUTUAL AID To support those around us in achieving their goals of educational success or more broadly is encouraged.

FULFILLMENT The study and work environment must be a place where everyone feels good and which helps to develop their full potential.

RESPECT Whatever their origin, culture, provenance or personal and professional goals, they deserve to be treated with respect, openness and without judgment.

PERSEVERANCE All are encouraged to find adequate solutions to overcome various obstacles and work towards achieving success.

Project Management (ACS)

Duration: 1-Year Program
Fees: 14,500$

What is Project Management?

Project management refers to the work of leading a team to achieve targets within a set deadline and budget. It requires the application of processes, methods, skills, knowledge and experience to achieve specific project objectives according to the project acceptance criteria. Project managers need to optimize the allocation of human resources and tasks to complete a project, which requires a different set of skills from those of business managers.

OVERVIEW

Project management is the process of leading the work of a team to achieve goals and meet success criteria at a specified time.
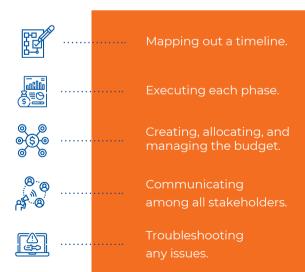

The primary challenge of project management is to achieve all of the project goals within the given constraints.

This information is usually described in project documentation, created at the beginning of the development process.

The primary constraints are scope, time, quality, and budget.

The secondary challenge is to optimize the allocation of necessary inputs and apply them to meet pre-defined objectives.

OUTCOMES

Mapping out a timeline.

Executing each phase.

Creating, allocating, and managing the budget.

Communicating among all stakeholders.

Troubleshooting any issues.

Application form   Language   Score
Passport ID page   Application   Fees
High School Diploma   Birth certificate

ADMISSION PROCESS
(International Students)

Once we receive the Admission form, passport page, language test scores and high school diploma we analyze the file and issue a Pre-Admission Letter.

Upon receiving proof of payment and birth certificate, we issue a Letter of Acceptance.

Students apply for CAQ and SP, which they have to present before starting the college program.
